

## ABOUT MARY MILLER JORDAN

Mary has continued her success in the Extreme Mustang Makeovers with subsequent mustangs, culminating with a reserve championship in 2012. One of Mary's training journeys was documented in the National Geographic Wild series-"Mustang Millionaire".

Mary travels nationwide teaching her B ME-Body Mind Energy training system. She also has recently begun to offer online courses to better your relationship with your horse. In addition, she has founded a non-profit organization-I AM HERD. Through her organization she gives motivational presentations featuring her personal herd of mustangs.

While at the Ride, I am sure you will always find Mary in her signature handcrafted and personally invented western riding helmet. Traveling with her from her North Carolina home will be her family, including husband Mike and their daughters as well as several of her makeover mustangs who have all joined her family!
